CONTENTS

Volume 4, Issue Nos 1–4

HYDROLOGICAL PROCESSES

VOLUME 4, ISSUE No. 1 *January–March 1990*

Mechanisms of Water Storage in Salt Marsh Sediments: The Importance of Dilation: W. K. Nuttle, H. F. Hemond and K. D. Stolzenbach 1

The Identification of Runoff-Production Mechanisms Using Environmental Isotopes in a Tussock Grassland Catchment, Eastern Otago, New Zealand: M. Bonell, A. J. Pearce and M. K. Stewart 15

Trials of an Acoustic Method of Measuring Piezometric Levels in Standpipes: W. Heath and S. Dedi 35

Analysis of Solute Transport with a Hyperbolic Scale–Dependent Dispersion Model: S. Mishra and J. C. Parker 45

Hydrochemical Processes in Groundwater-Discharge Playas, Central Australia: J. Jankowski and G. Jacobson 59

Case Study Evaluation of Geomorphologic Rainfall–Runoff Model, Incorporating Linear Infiltration Expression: M. N. Allam 71

Characteristics of Suspended Sediment in the Upper Rhone River, Switzerland, Including the Particulate Forms of Phosphorus: D. Burrus, R. L. Thomas, B. Dominik, J.-P. Vernet and J. Dominik. 85

Book Review
Modern Trends in Tracer Hydrology: P. L. Smart 99

VOLUME 4, ISSUE No. 2 *April–June 1990*

Flood Hydrograph Estimation from Arid Catchment Morphology: M. Nouh 103

Groundwater Cation Concentrations in the Riparian Zone of a Forested Headwater Stream: A. R. Hill 121

Partitioning of Rainfall in a Eucalypt Forest and Pine Plantation in Southeastern Australia: I Throughfall Measurement in a Eucalypt Forest: Effect of Method and Species Composition: R. H. Crockford and D. P. Richardson. 131

Partitioning of Rainfall in a Eucalypt Forest and Pine Plantation in Southeastern Australia: II Stemflow and Factors Affecting Stemflow in a Dry Sclerophyll Eucalypt Forest and a *Pinus Radiata* Plantation: R. H. Crockford and D. P. Richardson 145

Partitioning of Rainfall in a Eucalypt Forest and Pine Plantation in Southeastern Australia: III Determination of the Canopy Storage Capacity of a Dry Sclerophyll Eucalypt Forest: R. H. Crockford and D. P. Richardson 157

Partitioning of Rainfall in a Eucalypt Forest and Pine Plantation in Southeastern Australia: IV The Relationship of Interception and Canopy Storage Capacity, the Interception of these Forests, and the Effect on Interception of Thinning the Pine Plantation: R. H. Crockford and D. P. Richardson 169

One-dimensional Dispersion in Unsteady Flow in an Adsorbing Porous Medium: an Analytical Solution: R. R. Yadava, R. R. Vinda and N. Kumar 189

VOLUME 4, ISSUE No. 3 *July–September 1990*

Depletion and Recharge of Soil Water in Two Stands of Norway Spruce (*Picea Abies* (L.) Karst): L. G. Norden 197

Monitoring Spatial Variability of Forest Interception: M. G. Durocher 215

Seasonal, Hydrological, and Land Management Factors Controlling Dissolved Organic Carbon Concentrations in the Loch Fleet Catchments, Southwest Scotland: I. C. Grieve 231

Seasonal Soil Water Dynamics in the Jarrah Forest, Western Australia. I: Results from a Hillslope Transect with Coarse-textured Soil Profiles: J. K. Ruprecht and N. J. Schofield 241

Seasonal Soil Water Dynamics in the Jarrah Forest, Western Australia. II: Results from a Site with Fine-textured Soil Profiles: J. K. Ruprecht and N. J. Schofield 259

Mathematical Modelling of Sea Water Intrusion, Nauru Island: F. Ghassemi, A. J. Jakeman and G. Jacobson. 269

Further Discussion on the Intercomparison of the Trace Metal Concentrations and Particle Size of Fluvial Sediment Recovered from Two Centrifuge Systems: S. Santiago, R. L. Thomas, J.-L. Loizeau, P.-Y. Favarger and J.-P. Vernet 283

Transpiration of Plantation *Pinus Radiata* Estimated by the Heat Pulse Method and the Bowen Ratio: T. J. Hatton and R. A. Vertessy 289

VOLUME 4, ISSUE No. 4 *October–December 1990*

Use of Practical Aspects of Soil Behaviour to Evaluate Different Methods to Generate Soil Hydraulic Functions: J. H. M. Wösten, C. H. J. E. Schuren, J. Bouma and A. Stein . . 299

Rainfall Interception in Two Tropical Montane Rain Forests, Columbia: E. J. Veneklaas and R. van Ek 311

Design and Application of a Constant Head Well Permeameter for Shallow High Saturated Hydraulic Conductivity Soils: R. W. Bell and N. J. Schofield 327

Recharge Processes during Snowmelt: an Isotopic and Hydrometric Investigation: J. M. Buttle and K. Sami 343

Processes of Water Movement Through a Chalk Coombe Deposit in Southeast England: M. G. Hodnett and J. P. Bell 361

Role of Hypsometry and Planform in Basin Hydrologic Response: A. D. Howard . . . 373

Hydrology of a Headwater Basin Wetland: Groundwater Discharge and Wetland Maintenance: N. T. Roulet 387
